Artesia, New Mexico, March 15, 1949

Wm. Mitchell B  
Well No. I.P.12 is located 25 ft. from ~~SW~~ S line and 25 ft. from ~~SW~~ E line of sec. 19  
SE 1/4 SE 1/4 Sec. 19 17S 32E N. M. P. M.  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Maljamar Lea New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

After this well was shot and cleaned out we failed to find a point between the 6th and 7th zones where the packer would hold. To check the condition of the hole at point a Caliper Survey of the hole was made, and copies of that survey report is enclosed herewith.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Buffalo Oil Company

Address Box 517

Artesia, New Mexico

Title Superintendent

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to support effective decision-making.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and reporting, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that data is used responsibly and ethically.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of ongoing monitoring and evaluation to ensure that data management practices remain effective and aligned with the organization's goals.

6. Finally, the document provides a list of references and resources for further reading. It includes links to relevant articles, books, and industry reports that can provide additional insights into data management best practices.
