**DETAILS OF WORK**

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement-  
On September 24, 1963, this office forwarded to you a notice of intention to drill the Baish "A" No. 11. On the notice of intention to drill we stipulated that the 2 7/8" tubing was to be set at 2,400' and cemented w/360 sacks. In accordance with telephone conversations between our office and your Hobbs office, the amount of cement required to cement the 2 7/8" tubing has been reduced from 360 to 125 sacks.

Your approval of the above change is requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
