17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Temporary abandonment was requested on June 7, 1976, pending receipt of partners approval to install Kobe hydraulic pumping equipment. Approval was subsequently received and the downhole hydraulic pump was installed after gas lift equipment was removed. This well was returned to production on June 25, 1976. There were no changes in perforations, plug back depth, stimulation, etc.

Increased production from this well has led to hydraulic pump installations at the remaining four wells in the Kemnitz Lower Wolfcamp Unit.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
