**Baish "A"**

**September 27, 1963**, 19\_\_

Well No. **10** is located **990** ft. from **[N]** line and **990** ft. from **[E]** line of sec. **21**

**NE/4 of NE/4 Sec. 21 17S 32E NMPM**  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

**Baish** **Lea** **New Mexico**  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is **NA** ft.

**DETAILS OF WORK**

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On September 24, 1963, this office forwarded to you a notice of intention to drill the Baish "A" No. 10. On the notice of intention to drill we stipulated that the 2 7/8" tubing was to be set at 2,400' and cemented w/360 sacks. In accordance with telephone conversations between our office and your Hobbs office, the amount of cement required to cement the 2 7/8" tubing has been changed from 360 to 125 sacks.

Your approval of the above change is requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company **Continental Oil Company**

Address **Box 460**

**Hobbs, New Mexico**
