Attention: Mr. Benny E. Bechtol

Gentlemen:

On June 21, 1968 we contacted you by letter stating that it would be necessary that you re-enter your State Well No. 1 located in Unit L of Section 6, T-16-S, R-38-E. Since that time I have had several telephone conversations concerning this matter, but to date you have taken no action toward properly plugging the well.

Therefore, you are directed to re-enter this well to a depth of approximately 1425 feet and at that point you are to set a 25 sack cement plug. It will also be necessary that you set a 25 sack plug to be bottomed at approximately 350 feet from ground level. To complete our well file, it will be necessary that you execute and submit Form C-105, Well Record, and if possible, two copies of a notarized tabulated list of all the deviation surveys conducted while drilling the well.

Please notify this office prior to commencing work on the well so that we may witness the setting of the plugs.

Yours very truly,

OIL CONSERVATION COMMISSION
