Oil & Gas Inspector

Re: Southern Union(South Denton
State No. 1)
Unit L, Sec.6, T-16S, R-38E
Lea County, New Mexico

Gentlemen:

We have received your recent request, for additional information, with reference to the plugging of the above well.

We are unable, at this time, to certify that the work in question has been done. You may or may not be aware that Huron Drilling Company drilled this well on a farmout type basis from us, apparantly under our drilling bond. Huron went into bakruptcy while drilling this well, and it is my understanding that the rig is still over the hole.

We are in the process of contacting the Trustee's of the Bankruptcy, informing them of their responsibility under our contract with Huron Drilling Company, with regards to plugging the well.

I will have someone from our Company check the location, and report back to you as soon as possible.

We will make every effort to handle this as quickly as possible. Your patience has been greatly appreciated.

Yours very truly,

BEB/mc

cc: Mr. Joe D. Ramey
Supervisor, District 1
