RE: Maljamar Grayburg Unit #59
K-10-17s-32e

Gentlemen:

The subsequent report on the Maljamar Grayburg Unit #59 is being returned to you. The pressure did not hold and leaked-off greater than 10%. You need to bring this well into correct status according to WFX-696 and Rules 702 - 706 of the Division Rules and Regulations.

After repairs are done, the operator shall notify the Hobbs district office of the date and time of the installation of injection equipment and of the mechanical integrity tests so that the same may be inspected and witnessed.

If you have any questions on this matter, please call the OCD Hobbs office (505) 393-6161.

Yours very truly,

OIL CONSERVATION DIVISION
