17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well was drilled to a total depth of 10,449' (E.L.) without encountering commercial shows of oil or gas. It will be plugged and abandoned by setting a 50 sack cement plug on bottom, and then putting 25 sacks at the top of Abo (8027'), 25 sacks at the top of Tubb (7304'), 25 sacks at the base of the San Andres (6068'), and 25 sacks in the bottom of intermediate casing (4618'). After pulling the recoverable 8-5/8" intermediate casing a 25 sack plug will be put in top of the stub, 25 sacks in the bottom of surface casing (364') and 10 sacks at the top. A steel plate will be placed over the top and the location marked with a permanent marker.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
