

OIL CONSERVATION COMMISSION
HOBBS, NEW MEXICO

July 23, 1968

**King Resources Company
Security Life Building
Denver, Colorado 80202**

Dear Sir:

The Commission finds that your P & A well the Shell State No. 1, located in Unit O, Section 32, T 15S - R 32E, was reported ready for surface inspection on July 1, 1968. Subsequent inspection on July 19, 1968 found the location not to be ready.

Condition of location was as follows:

- 1. Pits have not been leveled.**
- 2. Celler is open.**
- 3. Junk on location.**

Your plugging bond cannot be released until the above work is completed. Please notify us only when work is done.

Very truly yours,

OIL CONSERVATION COMMISSION

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

July 28, 1904

Mr. R. M. Ransome
Geological Survey
Denver, Colorado 80202

Dear Sir:

The Commission finds that your report of the state of the oil field, located in Unit C, Section 32, T. 12N. R. 32E. was received by the Commission on July 1, 1904. Subsequent investigation on July 12, 1904, found the location not to be ready.

The location of the field was as follows:

1. The field has not been leveled.
2. The field is open.
3. The field is on location.

Your report that the field cannot be released until it is ready to be released. Please note that only when it is ready to be released.

Very truly yours,

OIL CONSERVATION COMMISSION

John W. Ransome
