Re: Cabot State #1-C Sec. 29, T15S, R32E

Dear Mr. Chase:

This is to verify that the above-referenced well was plugged according to Oil Conservation Division specifications and the location was inspected July 11, 1989, and found to be cleaned up satisfactorily and the final plugging was released July 12, 1989.

In response to your inquiry concerning the amount you owe Pacific Enterprises Oil Company for production from the above-referenced well during the period in question, I do not feel that I can give you an answer since this seems to be a legal matter not under our authority.

Very truly yours,

OIL CONSERVATION DIVISION
