

Plugging Details:

(8 5/8" casing)	4890'-4990'	35 sacks
(Glorieta)	6140'-6240'	35 sacks
(Abo)	8210'-8310'	35 sacks

Summary:

It is thought that all hydrocarbon shows were adequately tested. An analysis of the electric logs did not reveal any additional zones of interest.
