This office will inspect all exploratory well drillsites and any other drillsite if it is considered to be in a sensitive area. If you feel that any location is sensitive as to environment, please advise. We will invite the Bureau of Land Management to accompany us on all pre-drilling inspections.

If you do not have any objections to the proposed operations, please acknowledge in the space below and return the carbon copy to this office, and we will approve the application. Please indicate the surface owner and the grazing allottee if known.
