13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The casing integrity test approved by an NOI on 10/1/94 will be performed by 7/1/95.

An intent to P&A this well was also filed 11/16/94 and approved by the BLM. Conoco as operator of the MCA Unit has determined that there is no further economic use for this wellbore and desires to plug and abandon it. However, complications with other partners in the MCA Unit have delayed this action. Conoco hopes to have this issue resolved by the end of 1995 and to proceed with plugging.
