17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Our original plan was to drill to 8800' and test the Drinkard formation. Re: our application to drill dated 7-16-75. We now plan to drill to 11,600' and test the ~~Morrow~~. ~~In the event the Morrow is not productive we will plug back to the Strawn formation for attempted completion.~~ In addition we plan to alter our casing program and run 11,600' of 5½" N-80 17# and 20# casing with sufficient cement to cover all productive formations.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
