

Continental Oil Company
Pearl "B" No. 5
Power Distribution

A plat is attached showing the proposed well location, existing roads, power line, proposed power line, also drawings of the pole design.

It is proposed to tie-in to an existing primary line and construct 5 spans (1650') of primary line. The poles will be 330' apart, 4-line poles and 1 pole with a transformer bank. A 20' right-of-way will be required to install this line. The proposed line is staked.
