Dear Mr. Sexton,

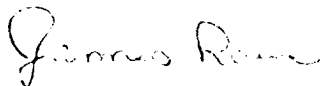

Please find attached a copy of the Initial Test conducted on the Dinero Operating Company, Eidson #1, located in Section 20, Township 16, Range 35, Unit H.

The Initial Test was conducted July 17, 1980. An attempt was made to conduct a four-point test, but was discontinued at the start of the second rate due to freezing in the wellhead choke and logging. At this point a stabilized one point was conducted.

The C-122 was completed along with form C-122D and are attached.

If we can be of any assistance please feel free to contact us.

Sincerely,

James Rowe
Well Test Technician
