Re: Proposed recompletion  
Henson "6" #1-M  
Section 6, T16S, R35E

Gentlemen:

We have this date approved the proposed testing of the Strawn formation in the above-referenced well. Should this zone be productive and you make a producer it is our understanding that you propose a multiple completion in the Wolfcamp and Strawn. You will need to submit an application for multiple completion, Form C-107.

We have approved the testing of the Strawn as a possible oil well but should it be completed as a gas well you will need to dedicate 320 acres to the gas well completion.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
