This form is filed to update the status of the well. A cement plug was set above the existing open hole (12,921'-13,424') from 12,975'-12,575' in May, 1998. Casing was milled from 12,675'-12,745'. An attempt to drill a horizontal lateral was unsuccessful and the well was temporarily abandoned. Currently the well is loaded with 10# drilling fluid. Plans are to attempt another horizontal re-entry in the future or convert the well to a disposal well.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
