Re: Exemption from Shut-In
State UTP Well No. 3, Unit P
Section 16, T-15-S, R-32-E
Feather Morrow Pool
Lea County, New Mexico

Dear Mr. Skinner:

As requested in your letter of July 31, 1985, you will be permitted to produce the subject well, which has been ordered shut in for over-production of casinghead gas, at a reduced rate until the overage has been made up, or until the overage has been adjusted by a favorable ruling on your request for an increased gas-oil ratio limit in the Feather Morrow Pool.

You will be required, however, to curtail gas production from the well to no more than half the top casinghead gas allowable for the pool. Since the top allowable is 820 MCFGPD, your well will be limited to no more than 410 MCFGPD.

Yours very truly,

OIL CONSERVATION DIVISION
