Liner	4-1/2	12.6	8875-11645	730	8875

<sup>22</sup> Describe the proposed program. If this application is to DEEPEN or PLUG BACK, give the data on the present productive zone and proposed new productive zone. Describe the blowout prevention program, if any. Use additional sheets if necessary.

**\*\*NOTE: It has recently come to our attention that this well never had the proper paperwork submitted for approval - this submission is intended to rectify that oversight.**

This is a plugback of a formerly deepened well undertaken by Autry Stevens in April 1998. At that time the well was drilled to 11,878' and 4-1/2" casing was set at 11,645'. A Strawn zone 11,350-68' was tested and deemed to be non-commercial. A cement plug was set from 11,460 - 9,864'. The well was then turned-over to Grand Banks for evaluation of Wolfcamp potential. This application is for a plugback and test of a Wolfcamp zone at approximately 9,250'.

<sup>23</sup> I hereby certify that the information given above is true and complete to the best of my knowledge and belief.
