RE: STATE B 33 #1, UNIT N, S33-T15S-R32E  
STATE A 28 #2, UNIT I, S28-T15S-R32E

Gentlemen:

The wells referenced above have recently been inspected by an Oil Conservation Division Representative, in an attempt to release the locations

As a result of these inspections, the inspector found the following work still needs to be done before these wells are released.

State B 33 #1

1. Remove all cable in pit area.
2. Remove flowline, rod, and junk from location.
3. Remove cement pile from location.

State A 28 #2

1. Please state Unit letter I on dry hole marker.
2. Remove the large cement slabs on northwest edge of location.

When the above has been done, please contact Jerry Sexton at 505-393-6161 or sign this letter below and return it to our address stated above.

Very truly yours,

  
JERRY SEXTON
