

YATES PETROLEUM CORPORATION

Adobe Scott "AYE" #1 Re-entry

1980' FSL and 1730' FEL

Section 11-T15S-R34E

Lea County, New Mexico

Drilling Information: Yates Petroleum Corporation plans to re-enter this well that was originally drilled as the Adobe Oil & Gas Corporation's Scott 1-Y well and plugged December 1985. Yates plans to re-enter using a drilling rig. A 5000# BOP system will be installed on the 9 5/8" casing. Plugs will be drilled out of the 9 5/8" casing which is set at 4520' and cemented to surface with 1800 sacks of cement. Casing shoe will be tested and open hole plugs will be drilled out to the original TD of 13510' using a 7 7/8" bit. No open hole logs will be ran. Production string of 5 1/2" casing will be ran to TD and cemented with 1250 sacks cement which should be sufficient to bring the cement top up into the 9 5/8" casing with TOC being approximately 4000'. The Mississippian and Morrow will be the main completion targets. Mud system will be 9.4-10.2 ppg salt gel system with 34-40 vis and approximately 12 water loss.
