Re: Change of Oil Transporter
Brown AEI #1-H 26-16-37

Gentlemen:

As discussed with Evelyn Downs of this office, we are returning your C-104 for a change of oil transporter on the above-referenced well. Since the well does not have an allowable this request cannot be approved.

Tesoro was the transporter for your test allowable approved in April, 1987.

In your conversation you indicated this well is experiencing some difficulty in producing and additional work and testing may be necessary before you can submit a completion test. In this case you might submit a second test allowable request along with a letter of explanation and it will be considered.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
