Re: Baish A Well #14-D  
Section 22, T17S, R32E  
Proposed Multiple Completion in  
Maljamar-Abo Pool and Baish-Wolfcamp Pool

Gentlemen:

We have this date received a copy of your application for permit to drill the above-referenced well which has been approved by the BLM.

It is noted both the referenced pools are on 80-acre spacing with first well to be located within 150 feet of the center of the NE or SW quarter/quarter. Your location, 810/N and 500/W, is unorthodox in respect to the 150 feet from center. You did not submit an 80-acre plat so we do not know what acreage you plan to dedicate, but it appears it may be sharing with #13-E (which has the W/2 of NW/4 dedicated). If this is the case, this will be second well on 80-acre proration unit and the qtr/qtr section will not be a factor.

Please submit revised Form C-102, outlining the appropriate dedicated acreage. If this well shares with #13-E, please so indicate.

Also, prior to completion of the well as a dual you must have Form C-107, Application for Multiple Completion, approved.

If you have questions, concerning this matter, please contact Evelyn Downs at 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
