RE: TOWNSEND 9401 JV-P #1
UNIT O -S30-T15S-R35E

21 195-32468

Gentlemen:

The above referenced plugged well site has recently been inspected by an OCD Field Representative in an attempt to release the location.

As a result of the inspection, the inspector found that the following work still needs to be done before it may be released.

1. Dry hole marker needs to specify correct range of R-35E.
2. Rig stacked on location. (If this has been removed please disregard).

When the above items have been done, please contact Jerry Sexton at 505-393-6161 or sign this letter below and return it to our address stated above.

Very truly yours,

JERRY SEXTON
District I Supervisor
