Re: Unorthodox Location
Caprock Maljamar Unit Waterflood Project
Caprock Maljamar Unit No. 154
Maljamar Grayburg San Andres Field
Lea County, New Mexico

Dear Mr. Stogner:

The Wiser Oil Company requests approval for an outside unorthodox location on the subject waterflood unit. A copy of this request is being sent this date by certified mail to Lynx Petroleum Consultants, Inc., the offset operator. This location designated Caprock Maljamar Unit Well No. 154 is shown on the attached map. The location of this well is as follows:

Caprock Maljamar Unit #154
1232' FSL & 1247' FEL
Unit P, Section 17 T17S R33E

This well will more efficiently and effectively establish the pattern of the waterflood as set out by Order No. R-10094.

Attached are copies of the C-101, C-102, map showing proposed access roads, map showing existing wells, proposed wells and plat of the waterflood area showing the original 80-acre 5-spot waterflood patterns. It is anticipated that the injection pattern will become a 40-acre 5-spot pattern.

Your earliest consideration of this request will be appreciated. Should you have any questions or require additional data, please contact the undersigned in Carlsbad at 885-5433.

Sincerely,

Perry L. Hughes
Agent for
The Wiser Oil Company
