SEE RULE 1103.

We petitioned the State of New Mexico some months ago for higher injection pressures for multiple wells in the Caprock Maljamar Unit, including this well.

Evidently, the petition was misplaced; we faxed another copy to Ben Stone on 9/8/97.
After several contacts with Mr. Stone, he indicated that the Order was ready to be approved, but we have not received it yet.

Until we receive the new Order, we fully intend to adhere to the pressure limitations under the old Order.
We have shut in the CMU 260 until either we are able to reduce the pressure or until we receive the new Order.
