Rand Paulson Oil Co Inc
ATT: Harvey J Dupree
508 W Wall, Suite 100
Midland, TX 79701

RE: A J 6 #1-R
Sec. 6, T-16s, R-35e

Gentlemen:

The Oil Conservation Division requires more paper work on the A J 6 #1 well before we are allowed to release the site. This well is a dry hole, but still requires according to Rules and Regulation the list of items below:

- Deviation survey
- Directional survey
- Full set of logs
- C-105 completion report (front & back)

Send this information to the District I, Hobbs office. If you have any questions on this matter, please call (505) 393-6161 ext. 115 for Donna Pitzer.

Very truly yours,

OIL CONSERVATION DIVISION
