Jerry Sexton
Oil Conservation Division of New Mexico
PO Box 1980
Hobbs, NM 88241

Dear Mr. Sexton:

It is my understanding that Chesapeake Energy Corporation is requesting the Oil Conservation Division to pool the mineral acreage in Section 5, T16S, R36E, Lea County, New Mexico, related to an oil well being drilled known as the Bus Barn Well(s). It is also my understanding that since there is no other oil well or operator within one mile of this well, it would normally be classified as a wildcat well with a proration unit of 40 acres.

As a mineral royalty owner, I would like to request notification of any hearings or decisions related to the pooling of this acreage. Thank you for your time and consideration in this matter.

Sincerely,

Stanley J. Dimsha
