17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *
(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

This well last produced in February 1975 from the Queen sand formation in the Shinnery Queen field. We have shut this well in because its low productivity made it a non-commercial well. We request permission to temporarily abandon this well until we can ascertain if it should be held for secondary recovery operations or for a possible water injection well in the Queen sand.

This approval of temporary
abandonment expires 8-1-76
