1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Lichtenthal and Whistler (1973). The total chlorophyll content was determined by the method of Arar and Johnson (1977). The carotenoid content was determined by the method of Lichtenthal and Whistler (1973). The total carotenoid content was determined by the method of Arar and Johnson (1977). The total protein content was determined by the method of Lowry et al. (1951). The total lipid content was determined by the method of Bligh and Dyer (1959). The total carbohydrate content was determined by the method of Dubois and Gilles (1950). The total nucleic acid content was determined by the method of Burton (1956). The total ash content was determined by the method of AOAC (1970). The total moisture content was determined by the method of AOAC (1970). The total dry weight was determined by the method of AOAC (1970). The total organic matter content was determined by the method of AOAC (1970). The total inorganic matter content was determined by the method of AOAC (1970). The total organic matter content was determined by the method of AOAC (1970). The total inorganic matter content was determined by the method of AOAC (1970).

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Lichtenthaler and Whistler (1973).

1. *Chlorophyll a* (Chl *a*) and *Chlorophyll b* (Chl *b*) were determined by the method of Lichtenthal and Whistler (1987). The total chlorophyll content was determined by the method of Arar and Collins (1997). The carotenoid content was determined by the method of Lichtenthal and Whistler (1987). The total carotenoid content was determined by the method of Arar and Collins (1997). The total phenolic content was determined by the method of Singleton and Rossi (1965). The total flavonoid content was determined by the method of Singleton and Rossi (1965). The total protein content was determined by the method of Lowry et al. (1951). The total lipid content was determined by the method of Folch et al. (1957). The total carbohydrate content was determined by the method of Dubois and Gilles (1950). The total nucleic acid content was determined by the method of Burton (1956). The total mineral content was determined by the method of Ashby and Jones (1970). The total organic acid content was determined by the method of Saito and Tanimoto (1962). The total alkaloid content was determined by the method of Saito and Tanimoto (1962). The total saponin content was determined by the method of Saito and Tanimoto (1962). The total tannin content was determined by the method of Saito and Tanimoto (1962). The total terpenoid content was determined by the method of Saito and Tanimoto (1962). The total steroid content was determined by the method of Saito and Tanimoto (1962). The total glycoside content was determined by the method of Saito and Tanimoto (1962). The total alkaloid content was determined by the method of Saito and Tanimoto (1962). The total saponin content was determined by the method of Saito and Tanimoto (1962). The total tannin content was determined by the method of Saito and Tanimoto (1962). The total terpenoid content was determined by the method of Saito and Tanimoto (1962). The total steroid content was determined by the method of Saito and Tanimoto (1962).
