## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION  
On August 7th, 1944 we reported on the above well as follows: "On March 12th we run 4028' of 7" casing. To date the plug has not been drilled as we are waiting to see what we find at the Wyatt # 1 wildcat well in Section 33, Lea County. When operations start again on the above well we will forward a report." We have decided to temporarily abandon this location and pull the 7" casing. There is a bridge in this hole approximately 200' from bottom up in the casing on account of bad circulation during cementing job. We would like to cut the pipe off at approximately 3700' and fill the hole with Rotary mud for the present.

Approved \_\_\_\_\_
