OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the \_\_\_\_\_

Barney Cockburn

Cockburn-State

Well No. 5 in \_\_\_\_\_

Company or Operator

Lease

of Sec. 32, T. 17S, R. 33E, N. M. P. M., Maljamar Field

Lea

County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well drilled to 980 feet with cable tools. At this depth tools were lost and, being unable to get them out, moved rig off location.

Application is made to move on rotary tools, attempt to fish tools out and if successful continue drilling to approximately 4000 feet with rotary and cement 7" casing at that depth with 100 sacks of cement preceded with heavy mud to surface.

After setting 7" with rotary tools, move on cable tools and continue drilling to pay horizon that should be encountered at approximately 4250 feet. Provided well makes a commercial producer, gun perforate 7" casing at top of salt formation and cement with 50 sacks of cement.

The reason that I would like permission in delaying cementing ~~the~~ above the salt is that this well is a semi-wildcat.

Approved \_\_\_\_\_, 19\_\_\_\_
