	DE	I AILS OF WORK
tate names of and expected dep	pths to objective sands; sho	I AILS OF WORK ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work)
	pths to objective sands; sho	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work)
	pths to objective sands; sho	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- l all other important proposed work)
n this well we wa	pths to objective sands; she ing points, and	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
on this well we wa	pths to objective sands; she ing points, and	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- l all other important proposed work)
On this well we wanted to the last of 8°, and the 8° casing will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
On this well we wanted to the last of 8°, and the 8° casing will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
on this well we wanted for the second control of the second will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
on this well we wanted for the second control of the second will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
on this well we wanted for the second control of the second will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
On this well we wanted the state of St. and The St casing will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
On this well we wn 1200 ft. of 8°, an The 8° casing will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
On this well we wanted to the last of 8°, and the 8° casing will	pths to objective sands; she ing points, and at to run 200 f ad approximately be comented vi	ow sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement- i all other important proposed work) 1. of 124 casing, 600 ft of 104, 1. 3700 ft of 7" if the red sand is obtained.
on this well we wanted the St. of St. on the St. of St. on the start in the start i	pths to objective sands; she ing points, and ing points to run 200 for the committee of the com	we sizes, weights, and lengths of proposed casings; indicate mudding jobs, comentiall other important proposed work) 1. of 124 casing, 600 ft. of 10°, 7 3700 ft. of 7° if the red sand is obtained. 1th 50 sacks and the 7° with 100 sacks. DEGE V
On this well we wanted to the last of 8°, and the 8° casing will to wish to start i	pths to objective sands; she ing points, and ing points to run 200 for the committee of the com	we sizes, weights, and lengths of proposed casings; indicate mudding jobs, comentiall other important proposed work) 1. of 124 casing, 600 ft. of 10°, 7 3700 ft. of 7° if the red sand is obtained. 1th 50 sacks and the 7° with 100 sacks. DEGE V
On this well we wanted the St. of St. and The St. casing will ste wish to start if	pths to objective sands; she ing points, and ing points, and approximately in communication.	oval in writing by the Geological Survey before operations may be commenced.
I understand that this plan	pths to objective sands; she ing points, and ing points to run 200 for the committee of the com	we sizes, weights, and lengths of proposed casings; indicate mudding jobs, comentiall other important proposed work) 1. of 124 casing, 600 ft. of 10°, 7 3700 ft. of 7° if the red sand is obtained. 1th 50 sacks and the 7° with 100 sacks. DEGE V
On this well we wanted the first of five start in the sta	pths to objective sands; she ing points, and ing points, and approximately in communication.	oval in writing by the Geological Survey before operations may be commenced.

		by the Geological Survey before operations may be commenced.
		by the Geological Survey before operations may be commenced.
I understand th	at this plan of work must receive approval in writing t	U NEOLOGICAL SURVEY
