(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. 5 is located 2310 ft. from N line and 330 ft. from E line of sec. 33
33 (1/4 Sec. and Sec. No.) 17N (Twp.) 33E (Range) 10N (Meridian)
Coconino (County) Arizona (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this well for a red sand test expected at about 3725 feet. 1400 ft. of 8 5/8" OD 24 lb. used casing will be set by rotary tools and cemented with 50 sacks. Now 7" OD 20 lb. casing will be run to the top of the pay section and cemented with 100 sacks. Hole will be drilled by cable tools on down from the bottom of the surface casing.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
