## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

On November 29, 1943 we sent in a report on setting the 7" casing. This was in error as there was only 3939 feet of 7" O.D. Casing run, the first report shows that 3963 feet was run, this measurement was taken from the tally and the 3 inch lap was not taken off, and we just now discovered this error was made. This was cemented with 75 sacks of cement and 50 sacks of heavy mud. The cement was allowed to set 72 hours before drilling the plug and testing for the water shut-off. The water shut-off was found to be satisfactory.
