17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Approval of the New Mexico Oil Conservation Commission to convert this well to water injection for the MCA Unit Waterflood Expansion was obtained under Administrative Order WFX No. 267, dated August 27, 1967. Therefore, it is proposed to convert the well using the following procedure:

1. Check for fill and clean cut if necessary.
2. Run Gamma Ray-Neutron log.
3. Run cement-lined tubing with packer set at approximately 3,850'.
4. Place well on injection.

18. I hereby certify that the foregoing is true and correct
