Re: Cockburn B State Lease

Gentlemen:

It is noted that the Cockburn B State lease has reverted back to Cities Service since the North EK Queen Unit has been terminated. The Cockburn B State Well #2-H in Section 1, T18S, R33E, was an injection well in that project. Please advise if the well will be used as an injection well for secondary recovery operations or if it is to be used as a salt water disposal well for the Cockburn B State lease.

If it is to be used as a salt water disposal well, you should request that it be reclassified from injection to disposal by our Santa Fe office.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
