RE: Convert Well to Water Injection
North EK Queen Unit 2-2
Section 1, T18S, R33E
1980' FNL & 660' FEL
Lea County, New Mexico

Gentlemen:

The attached AFE for \$8,000 will cover the cost to convert the North EK Queen Unit 2-2 to water injection.

This well is currently making a trace of oil and 100 barrels of water per day. We anticipate this conversion to offset production declines in our newer wells, North EK Queen 2-6 and 2-7.

Your .342389 share of the AFE will be \$ 2,739.11.
If this meets with your approval, please return one signed copy to this office.

Yours truly;

Chuck Sledge
Petroleum Engineer
