Feb. 4, 1959

Well No. 7-24 is located 990 ft. from SW line and 1990 ft. from E line of sec. 24  
SW4SE4 24 183 35E NMPM  
 (1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
E.K. Green Los County New Mexico  
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 5916 ft. 17

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate sanding jobs, cementing points, and all other important proposed work)

This well, after treating the Penrose Zone from 6023-34, made a small quantity of gas.

Request is made that I be permitted to temporarily abandon this well pending future possibilities of either deepening or converting to a possible water input well, if, as and when the pool is water flooded.

5-1/8" OD Casing is set at total depth with 2" Tubing in hole equipped with Tubing Heads, Valves, etc to safely close in. The location has been cleaned up and well sign on location.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
