17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Request temporary abandonment classification for this well, which is in North Vacuum San Andres Unit, a Unit which is under active waterflood. This well has watered out. We are presently using the well to observe reservoir pressure of the waterflood. We do not want to plug the well at this time because of its use as an observation well and because of its potential use as a water injection well, pending performance of offset wells over the next year or two.

Expires 10/1/75

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
