LAND COMMISSIONER JOHN E. MILES
MEMBER

STATE GEOLOGIST R. R. SPURRIER
SECRETARY AND DIRECTOR

P. O. BOX 871

Santa Fe, New Mexico

November 3, 1948

Dear Clarene:

The other day I was checking Wood River's two wells in section 4, T.17 S, R.34 E, Vacuum pool, and there was no approved plugging on the No. 4 well. Perhaps it didn't penetrate any water zones before they decided to skid over, but wish you would check.

There was a notice of intention to plug the Miller State No. 4, approved September 21.

Thanks for checking this for me - and Happy Day for the Democrats don't you say?

Betty
