Oil Conservation Commission,  
Box 2088,  
Santa Fe, New Mexico.

Gentlemen:

John A. Yates is now the Operator of the two  
Angle State Wells in Section 9, Township 17 South, Range  
34 East, N.M.P.M., Lea County, in the Vacuum Grayburg-  
San Andres Field.

Enclosed letter from Phillips Petroleum Company  
is self-explanatory, regarding a request from the Hobbs  
Office of the Oil Conservation Commission to connect these  
wells to a gas pipeline.

As these wells do not produce sufficient gas to  
connect to the gas pipeline, will you issue an exception  
to the No-Flare regulation for this field, or a No-Flare  
Order, whichever is proper.

Should these wells become capable of producing  
sufficient gas to be connected to the gas pipe line, we will  
be happy to connect same.

Yours very truly,

*John A. Yates*
