

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Midland, Texas, December 9, 1940

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the The Texas Company's
State of New Mexico "R" Lease Lease No. All wells in S₂

Company or Operator Lease
of Sec. 1, T. 18-S, R. 34-E, N. M. P. M., Vacuum Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We request permission to use central tank battery to receive the production from the following wells on our State of N. M. "R" (Lease No. 55035) Wells Nos. 6, 7, 8, 9, and 4 additional wells which we anticipate drilling and completing on this portion of the lease. All of these wells are located on Military Institute Land.

This central tank battery would, therefore, eventually be used to receive the production from 8 wells of the S₂ of Section 1, T-18-S, R-34-E, and would be located approximately in the center of the S₂ of this Section as shown on the attached sketch. It would include adequate tankage and other equipment, so that the production from each well could accurately be determined at reasonable intervals.

Approved 12/12, 1940
except as follows:

PDG, Jr-CVM
NMOCC - 3

SKETCH OF PROPOSED CENTRALIZED TANK BATTERY FOR THE STATE OF NEW
MEXICO "R" LEASE WELLS LOCATED IN THE S-1/2 OF SECTION 1;
T-18-S; R-34-E; LEA COUNTY, NEW MEXICO.

Note:- The manifold and separators make it convenient to test the production of any well separately.
