## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We request permission to use central tank battery to receive the production from the following wells: State of N. M. "AC" (Lease No. 54615) Wells Nos. 1, 2, and six other wells which we anticipate drilling and completing on this lease. All of these wells are located on Common School Land.

The central tank battery would, therefore, eventually be used to receive the production from eight wells located in the S<sub>2</sub> of Section 2, T-18-S, R-34-E, and would be located approximately in the center S<sub>2</sub> of this Section as shown on the attached sketch. It would include adequate tankage and other equipment, so that the production ~~from each well~~ each well could be accurately determined at reasonable intervals.
