17. Describe Proposed or Completed Operations *(Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work)* SEE RULE 1103.

This well was temporarily abandoned in 1962 pending possible secondary recovery
operations. We now propose to salvage casing and plug and abandon this well
as follows:

    Set 15 sx (105') cement plug in 5-1/2" casing 4350-4450.
    Shoot off and recover 5-1/2" casing as deep as possible.
    (Top of cement at 2170')
    Put 25 sx cement 1/2 in and 1/2 out of 5-1/2" casing stub.
    Put 25 sk cement plug across anhydrite top (1782') if this is above
    5-1/2" stub.
    Put 25 sx cement in bottom of 8-5/8" surface casing at 256'.
    10 sx in top of well.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
