## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

I propose to drill this well to a total depth of approximately 5000' unless commercial production is obtained at a lesser depth. Approximately 1600' - 8-5/8" OD casing will be set and cemented with 50 sac on top of the salt. If production is obtained a 7" OD string of casing will be run. Anticipated pay will be from the Queen sand at 4500'.

Combination tools will be used. Contractor - Jumper Drilling Co
