Re: Lease New Mexico 04391

Dear Mr. Tribie:

Receipt is acknowledged of "Notice of Intention to Drill" dated January 3, 1957, covering your well No. 12-19 Federal " " on the subject leasehold in the SE 1/4 sec. 19, T. 13 S., R. 34 E., N. 1. N., E-K Queen Pool, Lea County, New Mexico.

Your proposed work is approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 28, 1942, copy of which will be furnished you on request, and subject to the following condition:

1. Drilling operations so authorized are subject to the attached sheet (revised February 1955) for general conditions of approval.

Very truly yours,

H. A. Dainton  
District Engineer

\_\_\_\_\_ January 3, 1957  
Federal "T" Lease  
Well No. 12-19 is located 1650 ft. from N line and 1549 ft. from E line of sec. 19  
15 Sec. 19 18-2 34-2 N.M.P.M.  
( $\frac{1}{4}$  Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
E-K Green Lee New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 4000 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

I propose to drill this well to a total depth of 4460', using rotary to approximately 1730' and cable tools from there to total depth.

13-3/8" surface casing will be run to a depth of 250' and cemented with 200 sacks, which should cause the cement to circulate to the surface.

An intermediate string of 8-5/8" will be set in the top of the anhydrite at approximately 1730' and cemented with 50 sacks.

The 5 1/2" oil string will be cemented at approximately 4435' with 100 sacks.

All casing in this well will be run and cemented in accordance with regulations set out by the U. S. Geological Survey.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
