

NEW MEXICO OIL CONSERVATION COMMISSION  
Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Phillips Petroleum Co.

Santa Fe

Well No. ~~39-45-48~~ in ~~3-8-35-38-38~~

Company or Operator

Lease

of Sec. 4 & 5, T. 18-S, R. 35-E, N. M. P. M., Vacuum Field,

Lea

County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

All of the wells listed above are in Section 5-18S-35E, with the exceptions of #39 and #46 in the NW/4 of Sec. 4, as shown on the attached plat. Permission was obtained from the Oil Conservation Commission on August 24, 1941, to flow seven wells into one tank battery. We now wish to request permission to add an eighth well (#46) to this battery, which consists of six 210-bbl. welded steel tanks. These eight wells can be efficiently produced into one central tank battery, provided an exception will be made to the Oil Conservation Commission ruling against flowing more than five wells into one central battery. Unless this exception is granted, it will be necessary to set an additional separator and two additional stock tanks for one well (46), which involves a considerable expenditure.
