Shut well in and temporarily abandon effective November 3, 1976. To be held for an indefinite period for possible future use in waterflood operations on this lease. Activation of well will depend on progress of flood operations. This well was last tested on October 12, 1976, at a 24 hour rate of zero barrels oil and 158 barrels water. It is equipped such as to preclude environmental or pollution hazards from its shut in status.
